## CZC COMMERCIAL INDUCTION COOKER

ALL-ELECTRIC KITCHEN, ONE-STOP SOLUTION

Our unity, truth-seeking, pioneering and enterprising, full of youthful spirit, we fast and efficient, rigorous standard, Have unlimited creative passion

## CULTURE IS THE LIFELINE FOR THE ENTERPRISE QUALITY IS OUR CULTURE

## Company Overview

## Office & Workshop

## Our Mission

To change the way the world cooks, make kitchen your food Art-Studio.

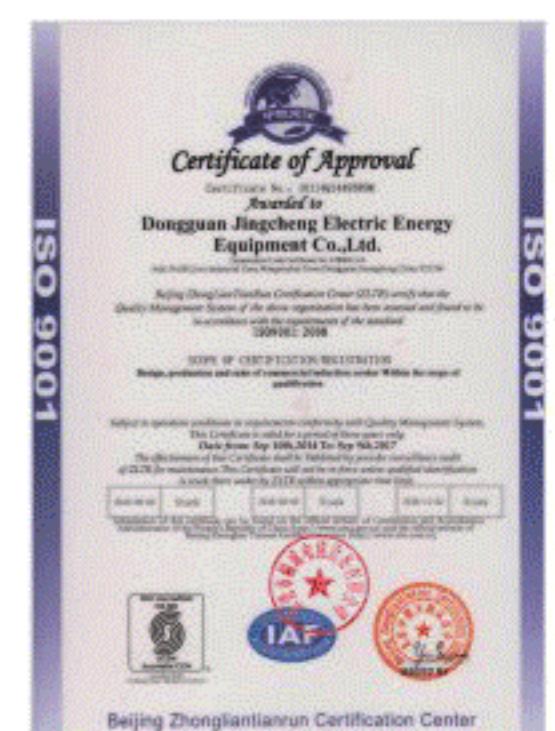

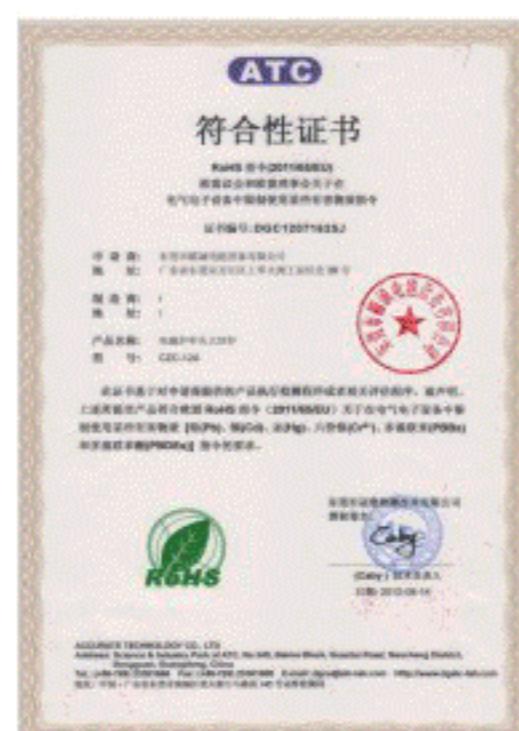

## Our Company

JINGCHENG ELECTRIC ENERGY EQUIPMENT Co., Ltd. founded in 2006, is a professional manufacturing enterprise integrating the research, manufacture, sales and after sale service of induction heating equipments. We mainly manufacture induction cooker for industrial and home purpose, we have full line products of free standing heavy ranges, tabletop cookers, built in cookers, double heads stove, four-head stove, home induction cooker, electric western cooking range, etc, Chinese and western style. Our company is devoted to the research and manufacture of electromagnetic heating equipment.

## Who We Are

We maintain a good reputation for well-designed products and wholehearted after-sales service. JINGCHENG has accumulated much experience in this industry, commercial equipment design and manufacture. We grasp technology of embedded system and high-power IGBT, and propose the leading global heating control technology of digitized electromagnetic induction. Therefore, we will offer digitized electromagnetic induction heating products are stable, safer, more efficient, more energy saving, and bring greater competitive advantages for your enterprise. With us, you can keep your business in safe; with our long-term commitment to induction keep your relationship with your client in smooth.

## ► ELECTRIC INDUCTION TILTING KETTLE

**CZC-13N**

Manual tilting pouring, optional automatic tilting  
 Jacket pot design, heat preservation and body burn protection  
 Loading capacity from 100L to 300L  
 With stirrer, spring speed adjustable  
 Timer and pre-set function  
 Safety protection with automatic shut off  
 Emergency button

**Application:** slow cooking, soup cooking, sauce cooking, pharmacy industry etc

**CZC-13F**  
**INDUCTION TILTING BOILER**

## ► INDUCTION PASTA COOKER

### Product parameters

Model No.	Dimensions (mm)	Baskets	Power	Voltage
CZC-39C	700x800x800	9	8KW	380V/3PH
CZC-39E	800x900x850	3/6	2x5KW	380V/3PH
CZC-39S	550x750x800	6	12KW	380V/3PH

## ► AUTOMATIC INDUCTION COOKER

Fast heat up, fast output, dedicated for central kitchen

**CZC-13H**  
AUTOMATIC INDUCTION FRYING MACHINE

**Specification:**

Induction coil heating, fast & energy saving  
Both pot and stirrer can spin, speed adjustable  
Frying capacity 50L, full load 200L  
Timer function  
With high pressure rinsing faucet  
One button tilting for pouring  
Safety protection with shut off function  
Emergency button available

Suitable for central kitchen and factory use  
Frying large capacity and fast output

**Product parameters**

Model No.	Dimensions (mm)	Load/Fry Capacity	Power	Voltage
CZC-13H	1800x1500x1600	200/50L	25KW	380V/3PH

## ► INDUCTION MODULE & PARTS

## Our customers

Work out regular product maintenance plan as well as optimized maintenance measures.

Set up customer product exclusive files

Establish spare part warehouse to store wearing parts, parts&components use and provide customers with various maintenance services.

During the maintenance period, after-sale service department will conduct irregular product inspection to ensure the quality of product. to ensure our service quality, we also customers for opinion regularly.

The maintenance personnel will go to customer place to conduct maintenance according to the plan and requirements of "confirmation of time, person, address, project"

the maintenance personal will accept the supervision of customer. after completion of maintenance, the maintenance personnel shall get the signature of customer for configuration.

Set up fault handling hotline. the customer complaint hotline can receive complaints on faults and service quality at any time.
